

### Develop a Python script

Date	10 November 2022
Team ID	PNT2022TMID1035
Project Name	Project – Smart solution for railways
Maximum Marks	4 Marks

#### **Smart solution for railways**

Create a code snippet using python to

1. Extract weather data from Open Weather Map using APIs
2. Send the extracted data to the cloud
3. Receive data from the cloud and view it in the python compiler
